VICTORIA NATIONAL GOLF CLUB GOES ORANGE

Highest quality of cut from Classic XP Reels and Turf Groomers

Charlotte, N.C. (July 31, 2009) — Matt Weitz, golf course superintendent of [Victoria National Golf Club](#) in Newburgh, Ind., has taken delivery of a package of turf care equipment from [Midwest Golf & Turf, LLC](#), Jacobsen's local dealer for the region. Jacobsen is a Textron Inc. (NYSE: TXT) company.

The 18-hole, 7,209-yard, par 72 course was designed by Thomas Fazio, ASGCA, and opened in 1998. Set among 418 acres of reclaimed mining land, the course features a dramatic landscape of native vegetation and deep, spring-fed lakes with an abundance of wildlife. It is ranked 24th in Golf Digest's 'America's Greatest 100 Golf Courses' for 2008-2009.

Midwest Golf & Turf's sales representative Mike Scholl sealed the deal, which totaled close to \$500,000 and included a selection of SLF-1880 fairway mowers, Eclipse 122F walking greens mowers, an AR-522 rough mower, AR-3 trim mowers and Cushman Turf-Trucksters.

Commenting on his new fleet, Matt Weitz said, "My search for a new leasing agreement began back in February when I arrived from Hillcrest Country Club. After months of close interaction with the three main manufacturers, it became clear to me that Jacobsen was the equipment best suited for my course."

"The quality of the Jacobsen equipment, supplemented with the first class service provided by Midwest Golf & Turf made my decision very easy. With specifics to the equipment, the Eclipse walking mowers and the SLF-1880 fairway units provide the high quality of cut on turf that a top 25 golf club demands. That's down to the groomers and new Classic XP reels which stay sharper, longer," he continued.

"After being an assistant at Victoria National and a head superintendent where both courses had equipment packages already in place, the experience of choosing my own equipment for the first time was intense yet very rewarding," Weitz added.

The Fazio-designed Victoria National will be maintained by a new fleet of Jacobsen equipment

Known for its natural beauty, Victoria National is ranked as one of "America's Greatest 100 Golf Courses" by Golf Digest
