

MEET THE SMITHCO ECO-STARS

Here are the electric-powered turf care products of the future.

Smithco began building electric-drive products in the early 1990s with the first electric-power bunker rake. Today these products are among the most productive, efficient, reliable products you can buy.

Electric turf care products are easy to operate and easy to service, make no noise and keep oil off your fine turf. Take a test-drive and see for yourself. You'll be doing yourself, the players, the community and the environment a big favor.

Super Star 48-Volt Electric Bunker Rake

So quiet you can hear a putt drop.

- Quiet during play...during early morning hours.
- Industrial grade 5 hp (3.8 kW) drive motor.
- Advanced solid state electric motor controller.
- Four powerful 12-volt ultra-deep cycle batteries.
- Smithco guarantees the Super Star 48-Volt will rake every bunker on any 18-hole golf course in the world on a single charge.

✦ Electra II All Electric Powered Greens Roller

Whisper-quiet operation won't wake the neighbors.

Greens are fast, smooth and consistent.

On a single charge the Electra II can roll between 100,000 and 150,000 square feet (9,300 to 14,000 square meters).

This depends on terrain, slopes and other conditions of course.

- No hydraulic fluid or any other harmful liquids on the greens.
- Choice of 2 rolling speeds to suit all conditions.
- Smooth transition between travel directions.
- Low profile and wide stance for superior stability and operator safety.
- Perfectly balanced machine for perfectly level rolling.
- Two matching, heavy-duty, powder-coated driving rollers assure maximum uniformity on all greens and "all-wheel drive" traction on steep slopes.
- Two 2.5hp (2 kW) continuous duty electric motors controlled by the Smithco 48 volt, solid state control system.
- Easy maintenance access to motors, batteries, drive and steering.

Smithco solid-state 48-volt electric technology breaks new ground by powering the quietest, most eco-friendly dedicated spray vehicle ever.

✦ Spray Star 1100e

Eliminates noise and oil contamination on greens.

Smithco solid-state 48-volt electric technology powers the quietest, most eco-friendly dedicated spray vehicle ever.

Built on the platform of the gasoline-powered Spray Star 1000 it is made for greens, tees and any fine turf.

The Spray Star 1100e is Deadly Accurate and Wicked Quiet.

- No hydraulic fluid to leak...no noise to annoy players.
- Positive ground speed control insures consistent vehicle speed while spraying.
- Perfect application using the Raven SCS440 Computerized Spray Control System.
- 110-gallon (415 liter) polyethylene tank.
